Weight: 18 kg

Two tuned sets of antique cymbals/crotales for Stockhausen "Mantra" on specially shaped insert boards, fitting all concert grand pianos. The insert boards are padded with thick felt on the underside. Kolberg antique cymbals/crotales "Concert" are cast of an exclusive, high-quality, very hard bell bronze alloy. Due to their special design with large diameter and extra thickness they achieve a unique full sound volume further to their typical bright, floating sound, thus forming a significant contrast to the glockenspiel of the same octave.

Accessories (included)

1 pair of mallets each for every set

Accessories (additional price)

- Flight case Stockhausen "Mantra" for antique cymbals and wood blocks **2390K**
