

Church bell G for "Symphonie Fantastique", H. Berlioz

Art.-Nr. KGG2

€0.00 incl. German VAT (19)

€0.00 without VAT

Weight: 96 kg

Size: approx. 100 kg / Ø 53 cm

All church bells are mounted on a very sturdy hydraulic stand, adjustable for height within a range of 40 cm. The hydraulic stand is then built into a flight case, so that the church bell can be transported safely. For use in the orchestra the church bell is provided to the percussionist on the mobile flight case bottom (see photo).

Upon request we can mount your existing church bells onto our hydraulic stand and build them into a flight case made to measure.
